

## FSLI releases “EnLighten” an automated Information Delivery tool

**Annapolis, MD (July 19th, 2004)** – Foundation Software Laboratories Inc. (fslipartner.com), a leader in Financial Management Software for the Legal and Professional Services industries, announced today the commercial availability of **EnLighten**, a system module that redefines expectations for financial management systems. **EnLighten** is a customizable, rules-based event notification system which automatically notifies key personnel by email of firm-defined conditions requiring immediate attention. Once a rule is established and thresholds are set, the system is self maintaining and runs “behind-the scenes” to automatically trigger notification alerts. Common events which can act as triggers in **EnLighten** include:

<b>New Clients</b>	<b>Cash Receipts</b>	<b>Over or Under GL Account Limits</b>
<b>New Matters</b>	<b>Un Billed Write-Offs</b>	<b>Check Processing</b>
<b>Missing Time</b>	<b>AR Adjustments</b>	<b>Open AP</b>
<b>Delinquent AR</b>	<b>Matter Budget Concerns</b>	<b>Fee Credits</b>

Each of the events described above as well as numerous others is delivered as a part of the core system. Parameters are set to firm-specified thresholds. **EnLighten** also provides the ability for each firm to create an unlimited number of firm-defined events using standard SQL queries.

FSLI’s **EnLighten** also has the ability to output data directly to a firm’s **Intranet** site on a scheduled basis. Now firms can access updated employee lists, client/matter directories, and financial reports from their secure, internal website. Information can now be deployed to a zero footprint / training environment.

“**EnLighten** offers law firm managers capabilities they’ve been requesting for years. Imagine looking in your inbox and seeing a series of e-mail alerts that contain critical information needed to make business decisions such as monies received yesterday, what attorneys are missing time and who is performing write-offs. This new proactive approach to financial management will ensure that problematic conditions can be rectified immediately. Most importantly, this information is provided automatically, freeing up resources in the accounting department to perform revenue generating tasks.”

- **Denise Wikman, Vice President, Sales & Marketing for FSLI.**

**EnLighten** is provided as a **no charge enhancement** to all of FSLI’s existing PD Partner customers and is included in PD Partner Version 10 and later for any new PD Partner customers.

### **About Foundation Software Laboratories, Inc.**
