

## FSLI announces new Volume Software Licensing Model

**Annapolis, MD (June 8, 2004)** – Foundation Software Laboratories Inc. ([fsli-pdpartner.com](http://fsli-pdpartner.com)), a leader in Financial Management Software for the Legal and Professional Services industries, announced today that the company has introduced a new volume licensing model for PD Partner, it's fully integrated billing and accounting suite, to reflect industry-standard pricing models and provide a greater value to clients.

"Our goal is to provide the highest quality product, the greatest flexibility and the most productive user environment for our clients. With the restructuring of our licensing model we can now provide the flexibility to deploy applications and features as needed to each individual, controlled and managed based on firm security policies rather than licensing restrictions."

-Denise Wikman, Vice President, Sales and Marketing

The new model will simplify the acquisition and streamline the implementation of the Financial Management system while improving the productivity of each individual user. New lower per user pricing will provide a quicker return on investment for the firm and will provide smaller firms with a cost effective, fully featured solution at an affordable entry point.

### **About Foundation Software Laboratories. Inc.**

FSLI is a developer and marketer of innovative Financial and Practice Management software for medium-to-large size law firms. Since 1981, FSLI has been helping law firms reduce costs and increase profitability by improving the efficiency of their account practices. FSLI has kept pace with technology, creating five complete generations of product over its history. Version 10 of PD Partner runs on the Microsoft™ Windows/SQL platform. With deployments ranging from 8 to over 1700 timekeepers, FSLI offers significant benefits to any size firm. FSLI, a privately held company, is headquartered in Annapolis, MD.
