

**New clients are taking advantage of the benefits of
FSLI's PD Partner Financial Management Suite**

News Releas e

Annapolis, MD (January 30th, 2004) – Foundation Software Laboratories Inc. (fsli-pdpartner.com), a leader in Financial Management Software for the Legal and Professional Services industries, announced today that seven law firms have recently chosen FSLI's PD Partner suite as their financial management system. These firms range in size from 12 to 70 lawyers and are located throughout the US and Latin America.

"Obviously, we are thrilled that firms are recognizing FSLI as a leader in innovative financial management software. Each successful implementation reaffirms our belief that by backing our state-of-the-art software with award winning customer service, both FSLI and our clients win."

- Carl Mack, President and CEO of FSLI.

One of FSLI's recent conversions is Jordan, Coyne and Savits L.L.P.

"We selected PD-Partner for a variety of reasons. The program is intelligently designed and utilizes Crystal Reports for reporting purposes. It is built on current Microsoft™ Windows technology, which reduced our hardware costs and training time. Lastly, we were impressed by the commitment that the people at FSLI had to their company and to their product. We were very pleased when all of our eleven years of data, including General Ledger, Trust and Conflicts, was converted without loss or mishap. Based on my experiences with FSLI, I expect to see PD-Partner continue to rapidly evolve, both to meet the needs of FSLI's newest users, and to take advantage of the newest technology."

- Rick Hauser, Controller

About Foundation Software Laboratories. Inc.
