

FSLI delivers new Microsoft™.NET Modules in PD Partner Version 10

Annapolis, MD (January 30th, 2004) – Foundation Software Laboratories Inc. (fsl-pdpartner.com), a leader in Financial Management Software for the Legal and Professional Services industries, announced today Version 10 of its PD Partner Solution Suite will be released April 15th 2004. Version 10 includes numerous customer suggested enhancements as well as two new modules designed exclusively with Microsoft™.NET technology, Remote Time Entry (RTE) and the Financial Management Inquiry Tool.

“We are constantly developing new modules that increase the value of PD Partner and we are always receptive to suggestions from our clients regarding product enhancements. The development of the new modules utilizing the Microsoft™.NET toolkit assures our clients that we are taking advantage of the latest innovations in software development. Microsoft™.NET allows us to create applications that are highly portable and adaptive to distributed environments.”

-Carl Mack, President and CEO, FSLI.

Remote Time Entry is designed to provide real-time data entry for the attorney on the go. RTE is a self-contained time entry and reporting system that can be used by attorneys when not connected to the firm's network. The system is fast, easy to use and includes online look-ups, timers, validations and even attorney-specific narrative macros. Data recorded on the laptop is easily uploaded to the server upon connection to the firm's network.

PD Partner's Management Inquiry program provides analytical tools that enable management to measure the productivity and profitability of the firm from any number of perspectives. This tool enables a user to answer a variety of firm, client, case or employee related financial questions. With a few clicks of the mouse, any user, with the appropriate security, can access up-to-date financial statistics Open Accounts Receivable, MTD Time and Costs Entered, YTD Time and Costs Entered, Annual Fee Credit information by Month, Billings, Collections, Reverse Bills, Reverse Collections, Adjustments and Reverse Adjustments. This information can be viewed firm-wide, for a given client, case, office, department, billing attorney or responsible attorney. Each summary view is supported by drill-down views. These drill down views allow the user to more closely examine supporting details.
